B. BURNETTE,

The Czar and Czarina in an Extremely Nervous Condition.

The Latter Said to Be Threatened With Insanity.

The True State of Affairs Suppressed at St. Petersburg-An Attempt Will Be Made to Secure the Belease of Mmo. Tchebrikova -- Moscow Students Protest Riot in Vienna -Foreign.

LONDON, April 12.-Information obtained from private sources is to the effect that the ezar still remains in a terribly nervous condition, while the ezarina is threatened with insanity. She is at present prestrated from a series of fits of vomiting and violent weeping, and she fears she may find death either in her food, or while walking or driving.

No account of her wretched condition is allowed to find its way into the papers at St. Petersburg. It is stated that the German emperor has written to the czar strongly advising him to make liberal concessions to the people. The czar has abandoned the Idea of visiting Den-mark this year, and will go, instead, to his Schpola estate in Poland.

Mme, Tchebrikova.

A movement is on foot in literary circles to endeavor to obtain the release of Madame Tehebrikova, who is in a Russian prison for writing a threatening letter to the czar. With this end in view, the various literary clubs in London are preparing a joint memorial to the czar praying that the lady be set at liberty, and an effort will be made to secure the co-operation of the government in the matter, though the success of the latter movement is doubtful.

Massaw Students.

Moscow Students.

Nine Moscow students have written a long letter to The London Daily Telegraph, protesting against the condomnation of their movements by that paper. The writers ascert that the government prescribes examinations which present difficulties impossible for the students to overcome, the object being to prevent them from securing degrees.

They further declare that with the same intention the students are allowed the greatest freedom, the police of the university towns conniving at gambling, dissipation and other immoral practices among them. The agitation, it is further stated, is further directed towards securing justice for the Jews, who are excluded from the universities. The letter asis The Telegraph to plead the cause of the students when they are in Siberia, which they are in Siberia, of the students when they are in Siberia, whither they will probably be sent.

Rid of Emin Pasha. LONDON, April 12.-The real trouble

with Emin is that those who are so anxious to get him safely back to African wilds have encountered unexpected difficulties. Since he was not com-plaisant enough to die when he could have done so most conveniently to many concerned, the grand object with one clique has been to stop his mouth from speaking and his pen from telling awk-ward tabs. From present indications he has raised

Ward tales.

From present indications he has raised his price and will not depart at anything like the sum a reest upon some months since. He would be more or less than human if he failed to contrast the henors showered upon Stanley and the golden harvest which awaits the American explorer in the greatest cities, the tributes from learning and becauty, and the applause of nations that he can find no time to visit with his own lot.

Sandbed and held in check as he has been, and fighting to avoid being fustled off to the wilderness whence he has just emerged, and feels confident he will never be permitted to emerge again, small blame will attach to him, every one, will say, if he has struck for at least a taste of the good things of this life.

Grievances of Eastern Farmers.

Transform, N. J., April 12.—The joint committee of members of the state board of agriculture and both houses of the legislature, to remedy present agricultural depression in New Jersey, have agreed on a memorial to congress, softing forth the most prompted gripes. agreed on a memorial to congress, setting forth the most prominent grievances that require National logislation as a remedy. The memorial insists on the demonstization of silver as one of the causes of depression. It also inveighs against the opening up of further public lands to be given away to foreign syndicates and immigrants, while there are still plenty of farms in the cast to be cultivated. The memorial opposes irrigation by the government for the purpose of helping western farms, and asks congress to turn its attention for awhile

to farms in the east. Trusts are con-demned, as are the concerns which con-trol the western beef and similar in-dustries. The evils of adulterated food and its dangerous competition with honest farm products is set forth. Dis-crimination in favor of the western and southern farmer in the matter of freight rates is also referred to.
